PROFESSIONAL PROFILE

Full Stack developer with solid knowledge in web technologies such as HTML5, CSS, Javascript, React and Next.js. My background as a business administrator gives me a valuable perspective to approach projects from different perspectives. My goal is to face new challenges and contribute to the success of an innovative team.

WORK EXPERIENCE

Publicis Global Delivery (Jul 2025 – Present)

Experience Technology Engineer [developer]

- Creating modern, accessible, and responsive interfaces with React, TypeScript, and tools like TailwindCSS and Styled Components.
- I'm responsible for ensuring sites perform well, load quickly, and are easy for content teams to use by creating reusable components, optimizing front-end performance, and keeping the creation experience fluid and intuitive.

Publicis Global Delivery (Nov 2023 – Jun 2025)

Junior Experience Technology Engineer [developer]

- Collaborative work with designers, QA, Product Owners, and DevOps teams to deliver robust, scalable products aligned with business objectives.
- Identification and resolution of technical problems that impact the user experience, ensuring optimal performance of the products.

Ambvalent.com (May 2023 – Oct 2023)

FullStack Developer (Freelance)

- Development of advanced features such as advanced search, product filtering, personalized recommendations and inventory management.
- Ensure that the marketplace is fully responsive and displays correctly on mobile and desktop devices.

Aruna Asesores SAS (Oct 2021 – Feb 2023)

Corporate website development and maintenance [developer]

- Lead the design and development of corporate websites, ensuring an intuitive and functional user experience
- Manage the maintenance and periodic updates of the website, ensuring its correct functioning and security.

Aruna Asesores SAS (Jun 2020 – Feb 2023)

Head of administrative division and quality

- Lead the implementation of systems such as ISO 9001, ensuring compliance with regulations and improving the quality of internal processes.
- Identify, evaluate and mitigate administrative and quality risks, ensuring business continuity.
